

## CORPORATE OVERVIEW

Founded in 1986, Skyservice™ is a leader in business aviation across Canada and the U.S. Pacific Northwest. Skyservice provides an integrated, full-service, one-stop-shop for all its clients' business aviation needs. The company's acclaimed business lines include business aviation services, fixed-base operations, and maintenance.

Our company's ongoing focus and investment in safety and service rank us among the world's best. Skyservice has consecutively earned the platinum-level rating by the Aviation Research Group (ARG/US), North America's highest and most stringent rating for operational safety, and has been recognized by peers for providing the best services and amenities at our FBO facilities. Other accolades include Best Canadian FBO, 2022 Praise Survey – *ProPilot Magazine*; Best Canadian FBO, 2022 AIN; and Best Ontario FBO, *Wings* 2021, Ontario.

Today, Skyservice has 12 locations and manages more than 65+ aircraft for leading corporations and private owners. We believe in investing in our people, our industry and in the communities we operate. As we grow, we are steadfast in our commitment to innovate and support responsible operations. Skyservice was the first to bring sustainable aviation fuel (SAF) to Canada for our clients and we are working diligently to become carbon neutral in our operations by 2050.

At Skyservice, we aim high and reach further to provide our clients from around the globe the best of what business aviation can offer.
